

Week 29 of Remote Learning

MAY THE 4TH BE WITH YOU

“Mind what you have learned. Save you it can.”

— Yoda

Wise words from Jedi Master Yoda. You don't have to be a Star Wars fan to understand that our minds are very powerful. They help us learn by seeing, doing, and memorizing. Let me ask you something. If you forget everything you were taught, did you learn anything? Learning is measured by how well we can soak up the information we are given in order for us to be able to do or explain it ourselves.

This week for PE with Jose we will be sharpening our minds by playing a variety of memorization games. A link to the memory games websites and videos are provided below. Please explore the options, challenge yourself, and have fun with it :)

STAR WARS NAME GAME

Let's see how well you know the Star Wars character by playing the name game!
